## GreeneStep Smart Warehousing Scan, Store, Pick & Ship Faster!

Eliminate errors, reduce costs, and speed up shipments with a smart, barcode-driven warehouse app.

### About Warehouse Automation

The GreeneStep Warehouse Automation App helps to streamline warehouse operations with barcode scanning, real-time inventory tracking and Shipstation integration.

Designed for mobile tablets and bluetooth scanners, it enables faster receiving, storing, picking, packing, and shipping—eliminating manual errors and paperwork.

### Key Benefits

- ✓ Automate inbound and outbound
- ✓ Reduce errors & improve accuracy
- ✓ Barcode and QR code scanning
- ✓ Real-time stock visibility & tracking
- ✓ Mobile tablets & bluetooth scanners
- ✓ Faster pick, pack and ship process

### What our customer says

“The Warehouse Automation App has revolutionized our warehouse operations. It has optimized our inbound, outbound, and inventory processes, seamlessly connecting our warehouse, sales, and finance teams in real time. We’ve eliminated manual errors, paperwork, and delays, ensuring smooth, automated workflows.”

**Ronnie Mehta**  
CEO, Worldwide Home Furnishings, Canada
